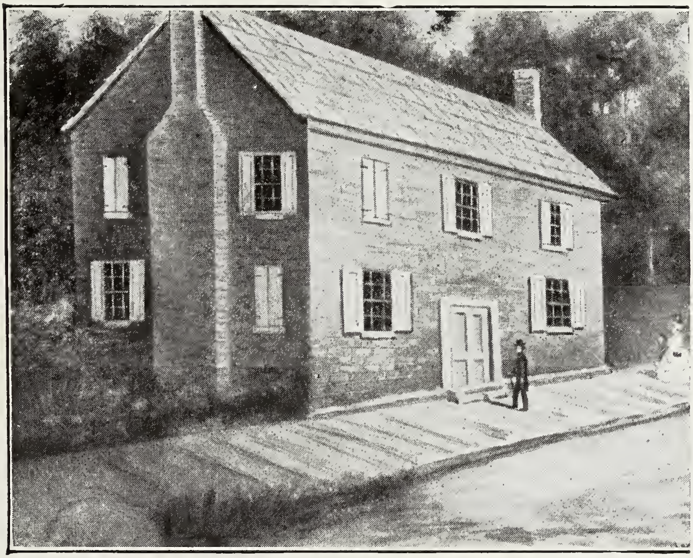
"THE OLD BRICK CHURCH"—WASHINGTON, MISS.

This Church was erected in 1816, was used as first Statehouse of Mississippi. Mississippi's first Constitution of 1817 was written and adopted here, and the first legislature of the new State was convened here. Aaron Burr's preliminary trial for treason was held under two huge oaks that stood nearby.



FIRST CAPITOL BUILDING

Today but a historic memory, Mississippi's State House, or Capitol, was a small brick building which stood where the Harding Building now stands at the corner of Capitol and President Streets. It was here that Robert J. Walker, a Mississippian who achieved national fame, was elected to the United States Senate. Andrew Jackson spoke in it when a candidate for President of the United States.

OLD CAPITOL BUILDING

Aside from its value as a historic landmark, the Old Capitol possesses intrinsic value as a piece of architecture of harmonious outline and admirable proportions. Built in 1840, it was the scene of stormy debate and fateful decisions during the Civil War and reconstruction periods. The Legislature of 1916 at the instance of the Women's patriotic organizations of the state appropriated money for the restoration of the exterior and the remodeling of the interior as offices to accommodate departments of the state government.

NEW CAPITOL BUILDING

This domicile of Mississippi's government is admittedly one of the handsomest capitol buildings in the entire Union. Built of Bedford limestone and containing every type of marble used for interior decoration, this structure, at a period when graft in public buildings was epidemic throughout the country, was built within the appropriation of one million dollars, without graft and without the sale of bonds or the increase of the tax levy.

MONUMENT ERECTED AT THE BIRTH PLACE OF THE STATE OF MISSISSIPPI ON MAY 14, 1935

The above is a half-tone illustration of the beautiful marble memorial erected, by order of the Legislature of Mississippi, (see Section 1, Chapter 1, Laws of Mississippi. 1934) by the Monument Commission, composed of Sennett Conner, Governor, Chairman; Dr. Dunbar Rowland, Director of the Department of Archives and History, Secretary; and Walker Wood, Secretary of State of Mississippi.

An appropriation of $2,000 00 was provided by the Legislature for this purpose, and after due investigation and consideration of various bids from marble manufacturers throughout the State, the work of manufacturing and erecting this beautiful monument was awarded jointly to the Columbus Marble Company, Columbus, Mississippi, and the A. J. Martin Marble Company of Vicksburg, Mississippi, at and for the sum of $1800.00.

Being erected according to contract, this monument was dedicated on May 14, 1935, with appropriate ceremonies.

Later, the Monument Commission made contract with the A. J. Martin Marble and Granite Works, Jackson, Mississippi, for the proper enclosure of the monument site, and this work is at this time, February, 1936, in course of completion.

This monument is erected on the site of the "Old Brick Church," an illustration of which appears in this edition of the Mississippi Blue Book. This old church, long since destroyed, was occupied by the First Constitutional Convention of Mississippi, and was used for a meeting place of the First Legislature of Mississippi.

Biennial Report Secretary of State

Office of the Secretary of State

Hon Sennett Conner, Governor of the State of Mississippi, and Members of the Mississippi Legislature.

Gentlemen:

I have the honor to submit for your consideration, and in compliance with law, a report of the business transacted by this Department during the fiscal biennium from July 1, 1933, to June 30, 1935, inclusive. Elsewhere you will find a table showing the foreign and domestic capital that has been organized within or admitted to the State within said biennium; also a table showing the total cash receipts of the Secretary of State's office during the same period, together with other tables showing individual sources of these receipts, to-wit: charter fees, notary public commission fees, Blue Sky permit fees, and miscellaneous fees and receipts from the sale of laws, Supreme Court Reports, etc.

A table is also shown, making a comparison of the total capitalization of both domestic and foreign corporations for the past two six-year periods, from July 1, 1921 to July 1, 1927, and from July 1, 1927 to July 1, 1933, the first six-year period totaling $462,635,750 for both domestic and foreign charters; and the second six-year period totaling for both domestic and foreign capitalization, $2,131,752,981, or more than four times the amount of the former period. It will also be observed that the total domestic and foreign capitalization for the past biennium, from July 1, 1933 to July 1, 1935, totaled $858,161,740, which is a material proportionate increase over the six-year period next preceding, and nearly twice the total amount of the six-year period of 1921 to 1927.

The total cash receipts of the Secretary of State's Department, collected from the sales of laws, reports, notary public commission fees, charter fees, blue sky fees, miscellaneous fees, etc., for the past biennium, show gratifying increases over those for the former biennium, evidencing the trend upward of Mississippi business, over the years of 1932 and 1933, which marked the heart of the present depression.

OFFICE WORK

Regardless of any decrease in receipts of the Department, incident to business depression, the work of the office has not necessarily decreased. The work of handling corporations, blue sky laws, commissions, election returns, public printing, and the voluminous amount of routine business of the department, etc., has not declined, and the routine work of service and correspondence has grown steadily year by year. In fact, for the past three bienniums the general work of this department has increased at least 50 per cent over that of former bienniums. The clerical work of the department has so increased during the past few years, that an efficient filing clerk at a salary of at least $150.00 per month, is much needed, and would greatly facilitate the service rendered by the Department. The Department also needs an appropriation of $1,000.00 with which to provide adequate additional filing cases for the completed card index system of domestic corporations, and make other needed improvements in the department.

ADDITIONAL OFFICE SPACE

During the past few years the increased business of the State Departments has made the question of adequate office space in the Capitol buildings a problem for the Capitol Commission to deal with. At the present time every available office is occupied and committee rooms and hall ways have been pressed into service, in order to provide office space. More store room is also badly needed by a number of departments.

Every available nook and corner has been partitioned off in the two capitol buildings, to provide storage space for records, books, papers, etc.

At this time there are three departments of government renting office space in the business district of Jackson.

There is a building on the northern end of the Old Hospital site that is fireproof and practically new, and can be arranged at reasonable cost as an office building and to store away systematically records of all departments. This would relieve congested conditions in the capitol buildings, house the departments that are now paying rent for quarters, house other departments or boards, and store valuable records that are shoved in any space that can be found, without care or system.

CAPITOL BUILDINGS

The New Capitol has been in use for the past thirty years and the Old Capitol was remodeled and put in good condition in 1916. The appropriations for the up-keep of the buildings and grounds in the past have been small.

At the 1934 session of the Legislature there was appropriated $200,000.00 to be used in repairing, re-decorating and improving the buildings in which the state institutions are located, and the Capitol buildings and Mansion. This appropriation was made contingent on the Federal Government matching the amount dollar for dollar for this work. The conditions were met and the State Repair Commission, composed of the Governor, Attorney General and Secretary of State, allocated for repair work on the Capitol Buildings $21,076.55, and under Senate Bill 450, Chapter 58, Laws of 1934 provided a fund of $5,500.00 on the Capitol Building contingent upon the ERA matching this fund, which was complied with. A total fund of $26,576.55 was turned over to the FERA which they matched and disbursed through their organization. An audit of the disbursement of these funds shows that the Federal Government spent on these projects $29,692.85 and the State $26,576.55 The Capitol Buildings, and Mansion, are now in good condition and with a reasonable upkeep fund the buildings should give 15 or 20 years of service before another general repair and re-decorating will be necessary. A full and complete report on the expenditures on the Capitol Buildings and Mansion, has been filed with the State Repair Commission and Auditor.

The 1934 session of the Legislature refused to make an appropriation to rebuild the power plant at the New Capitol and this necessitated using and changing over to Mississippi Power & Light Company service. This change required that we change our entire lighting system from direct to alternating current, and we partly made the change as funds would permit.

We need about $2,000.00 for this and other electrical work throughout the New and Old Capitol Buildings.

At the New Capitol there is some marble in bad condition and should be given attention by a competent workman.

The Capitol grounds are in good condition as could be expected without the services of a gardener to direct their upkeep and superintend the grounds. The State has a great deal of valuable shrubbery and trees and they should be under the care of a horticulturist, who could also police the grounds at the New Capitol, and prevent much damage that is done to trees, and shrubbery by trespassers.

At the Old Capitol there are only 3 porters and the work requires the service of another man who can assist these porters and look after the mail for the building. Handling the mail requires practically the full time of a man in connection with shipping for departments.

STATE PRINTING

At the 1932 session, the Legislature cut the appropriation for Public Printing for the biennium of 1932-1933 to just fifty per cent of prior biennial appropriations for this purpose, that particular appropriation amounting to only $40,000.00 for the two years, against the sum of $80,000.00 for former bienniums, to supply the printing and binding needs of various state departments. Due to NRA requirements, and general advance of everything, the price of labor, inks, paper, and all items required to make up the finished printed product, the appropriation of $40,000.00 proved entirely inadequate, and was exhausted early in the year 1933. The Governor, complying with the urgent requests of the State Board of Public Contracts, found it necessary to issue emergency authority for additional orders by the Board of Contracts for printing amounting to $25,000.00.

At the 1934 session, the legislature made an appropriation of $50,000.00 to cover the needs of Public Printing for the various departments and this appropriation has proven entirely inadequate to meet the requirements of the various departments, notwithstanding that a policy of the closest economy has been pursued by both the State Board of Public Contracts and the departments in ordering printing and binding, throughout the entire biennium.

This policy of economy will be followed in the future. However, with the growth of business and activities of the various departments accommodated through the Public Printing Fund, and for which special appropriations are not made, and in view of the fact that the advance in prices of skilled labor, material and general operating expenses of printing plants have rendered it impossible for the State Board of Public Contracts to secure the same low prices and liberal contracts for printing that have been secured in the past.

With these facts and contingencies in view, I recommend that for the purpose of covering the costs of State printing and binding for the ensuing biennium, that an appropriation of $40.000.00 for the year 1936, and $35,000.00 for the year 1937, be made, or a total of $75,000.00 for the two years.

Mississippi Capitals and Statehouses

"A brief history of Mississippi's capitals and state-houses, or capitols, might prove interesting to many citizens of this state, and more especially to the younger citizens and youth of the commonwealth.

"The territory later occupied by the State of Mississippi was created as a territorial form of government under the name of the Mississippi Territory by an Act of Congress, April 7, 1798, with Winthrop Sargent as the first territorial governor.

"The seat of government of a state or territory is usually defined as the place at which the legislature or general assembly convenes, and unless fixed by the constitution, might be moved by legislative authority. The first legislature of the new Territory of Mississippi met at Natchez on September 22, 1800. On February 1, 1802, the seat of territorial government was moved from Natchez and established permanently at Washington, a few miles east of Natchez.

"On March 1, 1817, Congress passed an Act to enable the people of the Mississippi Territory to form a Constitution and a State government, and for the admission of such State into the Union. This first constitutional Convention met in the Methodist church at Washington on July 7, 1817, with forty-seven delegates present, representing fourteen counties. This Methodist church was the first brick church erected in what was then known as the southwest territory, and has long since come to be remembered as 'The Old Brick Church,' a half-tone reproduction of which appears in this copy and former issues of the Mississippi Blue Book.

"On August 15, 1817, after thirty-eight days of deliberation, the Convention adopted the first Constitution of the proposed new State of Mississippi. David Holmes and Duncan Stewart were elected the first Governor and Lieutenant Governor, respectively. They were elected on August 16th of the same year.

"The first legislature met in the city of Natchez, but on account of the prevalence of yellow fever in that city at the time, Governor Holmes issued his proclamation for the legislature to meet in the town of Washington on the first Monday of October, 1817. Thos. Barnes was the first Speaker and Peter A. Van Dorn, the first Clerk.

"Another session of the legislature was held in the town of Washington, also because of the prevalence of yellow fever at Natchez but the sessions, in the main between 1817 and 1822 were held at Natchez. In the meantime, sentiment had crystallized in favor of establishing a permanent seat of government at or near the center of the then new State, and on November 28, 1821, an Act was passed designating Col. Thos. Hinds, William Latimore and Peter Van Dorn as a Commission to view out and locate a permanent seat of Government, the Federal Government having ceded to Mississippi two Sections of land on which to build a town to be the

State Capital. Later the Commission was authorized to purchase two additional half-Sections, adjoining the grant of the two Sections by the Federal Government.

"The town was laid off and named Jackson, in honor of Major-General Andrew Jackson. The first state-house was erected on the northeast corner at the crossing of Capitol and President streets, where the Baptist Book Store is today, and was a small brick structure. The legislature, which had convened at the temporary capital at Columbia in January, 1822, was moved to Jackson a few weeks later. This first capitol here was the first public building erected in the new capital city, and served the state's needs for some fourteen or fifteen years.

"However, in 1833, a new capitol was planned, and the legislature passed an Act on February 26th that year, providing for the erection of a Capitol and an Executive Mansion. The sum of $95,000.00 was appropriated for the capitol and $10,000.00 for the mansion, and work was soon begun. Further appropriations were made for these buildings in 1838, and the work pushed to completion. In 1839, the legislature met in the new building, although it was not completed until later. This building is now known as the 'Old Capitol' and stands at the head of Capitol street, on State street.

"This building served the State exclusively, for the housing of state departments until 1903, and much of the Commonwealth's most interesting history was created within its portals, and during the period of its active and exclusive occupancy. Chief among the most important and earlier events of history, was the incorporation of the University of Mississippi in 1844; the call of the War Department and the organization of the 1st Regiment of Mississippi Volunteers for service in the Mexican War under Jefferson Davis; in 1853 Davis was appointed Secretary of War by President Pierce; the schools for the blind and the deaf were established in 1848 and 1854, respectively, and also provision made for the establishment of the hospital for insane in the latter named year; a State convention passed the ordinance of secession by a vote of eighty-four to fourteen; and then came the Confederate War.

"During the War between the States, there were brief intervals when it became necessary to move the seat of government, and from May, 1863, to May 6, 1865, the seat of government was moved several times. When General Sherman first occupied Jackson with his army of Union troops, the seat of government was moved to Enterprise, Clarke County; thence later to Meridian; back to Jackson and back to Meridian; thence to Columbus, Lowndes County, thence to Macon, and back to Jackson.

"Toward the close of the nineteenth century, the capitol on State street was found to be inadequate to house all departments of state and accommodate their growing needs, and it was decided to erect another new capitol—a still larger state-house, and the site of the Mississippi penitentiary was selected for a location. This new building, erected within the period from 1900 to 1903, is what has since been known as 'Mississippi's new million dollar capitol.'

"Governor A. H. Longino, at that time the chief executive, prepared the bill authorizing the erection of this building, and was later made Chairman of the Building Commission. With him on this Commission were: Monroe McClurg, attorney general; R. H. Thompson; W. G. Stovall; R. A. Dean; L. T. Fitzhugh, Jr., secretary. Bernard R. Green, Washington, D. C., was added to act in an advisory capacity to the State Commissioners. The cost of the building, including steam heating power plant, furniture, electric and gas light fixtures, architect's fees and other expenses, amounted to $1,093,641.00, and was built without any bond issue or extra levy, notwithstanding the legislature authorized a bond issue, if necessary.

"The contractors were Wells Brothers Company of Chicago, and the architect was Theodore C. Link of St. Louis, who was assisted by his son, Karl E. Link. The contractors agreed to complete the building in thirty-one months, and work was actually commenced in March, 1901, and completed in July, 1903—well within contract time. It would require too much space here to fully describe the magnificence of this building, its marvelous architecture, the perfection of design and appointment, and the general imposing appearance of this handsome building, which all during the years it has served the State, has been the object of admiration of visitors from every state, and in some instances from other nations.

"Soon after its completion in 1903, the several departments of State moved their offices from the old capitol on State street to the new building, and the old building was entirely vacated and for the most part the doors were thrown open and the building allowed to deteriorate. From time to time during its vacancy, movements were inaugurated by various patriotic organizations, led by Mrs. Dunbar Rowland, to preserve the building and to use it for historical purposes.

"By the year 1916, however, the need for additional office room, and room for the preservation of records, in the new capitol had so developed that the legislature of 1916 appropriated $125,000.00, to be raised by the sale of state bonds, for the purpose of repairing the old capitol and placing it in a condition for re-occupancy. The Capitol Commission was charged with supervising this work, and the use of convict labor, and brick furnished by the penitentiary was provided for.

"Accordingly, the old building, seventy-seven years old at that time, was again brought into use and a number of state departments have since been housed there, to-wit: the Department of Education, Insurance Department, Agriculture and Commerce, Board of Health, Banking Department, etc.

"The first work of repair since 1916, and the first work of repair of any consequence on the new capitol since its erection thirty-odd years ago, has been accomplished during the past two years, when the interior of both the old and new capitols were generally repaired and redecorated under the supervision and direction of Walker Wood, Secretary of State, for the Capitol Commission, and in co-operation with the ERA administration, with a small appropriation by the legislature of 1934. Another outstanding and much needed improvement connected with this work, was the construction of hard-surfaced driveways at both capitols.

"And now, concluding this brief sketch of Mississippi's capitols and state houses, it might be well to state that only since the adoption of the Constitution of 1890 has the seat of government or capitol been definitely and permanently located or fixed at a particular place. Section 101 of the Constitution of 1890 reads:

" 'The seat of government of the state shall be at the city of Jackson, and shall not be removed or re-located without assent of a majority of the electors of the state.' "

The American's Creed

Written by William Tyler Page, Clerk of the U. S. House of Representatives, in 1917, and adopted by the House of Representatives on behalf of the American People, April 3, 1918.

"I believe in the United States of America as a Government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign Nation of many sovereign States; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies."

Pledge to the State Flag

To the State Flag of Mississippi we pledge allegience, as a sign of loyalty to our State and to our Country, the United States of America—one power indissoluble, with liberty and justice for all.

Citizens Creed

I believe in the State of Mississippi as one of the Sovereign States of a Sovereign Nation, the United States of America, founded and perpetuated upon the principles of Democracy, which insure for all, freedom, equal rights, justice and humanity.

I believe it to be my duty to labor for it, to defend it against all foes, and to direct and devote my physical, mental and spiritual powers in serving it, in upholding its Constitution and in obeying its laws.

MISSISSIPPI'S CHAIN OF TITLE

NATIVE DOMINION

When the territory which now composes the State of Mississippi was first explored by white men, they found it owned and occupied by the following tribes of Indians: Choctaws, Chickasaws, Natchez, Biloxis, Pascagoulas, Yazoos, Tunicas and Chocchumas, with the Choctaws in the central and southern portions and the Chickasaws in the northern part the most numerous and powerful. The Natchez tribe lived along the Mississippi river, in the counties of Adams, Claiborne, Jefferson and Wilkinson.

The Biloxis and Pascagoulas occupied the Gulf Coast section, and the Tunicas and Yazoos occupied the country along the Yazoo river. The Chocchumas lived in the eastern part of the State.

SPANISH DOMINION

1512—1699.

By right of discovery and exploration what is now Mississippi remained under the dominion of Spain from 1512 to 1699. Thus for that period Mississippi was governed by the following Kings of Spain:

Ferdinand V., Charles I., Philip II., Philip III., Philip IV., and Charles II.

FRENCH DOMINION

1699—1763.

In 1699 Mississippi became a possession of France by actual settlement and was called Louisiana. Biloxi, settled that year by d'Iberville, became the seat of government. For twelve years the Louisiana settlements were under the control of the Governors of New France (Canada), towit: Louis Hector de Callierves and Philip de Rigault, Marquis de Vaudreuil.

In 1711 Louisiana became an independent government, with the seat of government at Mobile. The following Governors, responsible directly to the Crown, ruled the country.

Pierre LeMoyne d'Iberville, governor general. Antoine LeMoyne Sauvolle, Jean Baptiste LeMoyne Bienville, Antoine de la Mothe Cadillac, M. De l' Epiany, Jean Baptiste LeMoyne Bienville, M. Perier, Jean Baptiste Lemoyne Bienville, Marquis de Vaudreuil and Louis Billouart de Kerlerec.

ENGLISH DOMINION

1763—1781.

By the treaty of Paris, February 10, 1763. (England, Spain and France), England gained much territory within the present limits of Mississippi, then styled the Province of West Florida, and for eighteen years the following Royal Governors ruled: George Johnstone, 1763, four years; Montfort Browne, John Eliot, and Elias Durnford at intervals, 1767-1770; Peter Chester, 1770, eleven years.

SPANISH DOMINION

1781—1795.

On May 9, 1781, the English Province of West Florida again became Spanish property by conquest. The following military and civil governors ruled the Natchez District for fourteen years; Francis Callell, Esterban Miro, Francis Bauligny, Manuel Gayosa de Lemos, Stephen Minor, Phelipe Trevino, Pedro Piernas, Carlos de Grand Pre and Joseph Vidal. The seat of government under Spanish rule was at Natchez.

AMERICAN DOMINION

By the treaty of San Lorenzo, October 27, 1795, the Natchez District became a part of the United States, and the Mississippi Territory was formed by Act of Congress April 7, 1798. Mississippi was admitted as a State December 10, 1817.

THE STATE MOTTO

The State motto of Mississippi, **Virtute et Armis,** meaning by valor and arms, was suggested by the Honorable James Rhea Preston of Virginia, who was at the time Superintendent of Education in the State of Mississippi.

THE GREAT SEAL OF MISSISSIPPI

The present State seal has been in use since Mississippi became a state in 1817, and is described as follows: "The seal and arms of Mississippi are simply an American eagle with outspread wings, occupying the entire surface of a silver circular field. In the right talon of the eagle is a bundle of four arrows, and the left talon holds an olive branch fruited. Around the outer circle of the seal is the legend, "THE GREAT SEAL OF THE STATE OF MISSISSIPPI," in Roman capitals; a silver six-pointed star in the base. The diameter of the seal is two inches."

ADOPTION OF MISSISSIPPI STATE FLAG

The committee to design a flag and State Seal was appointed by legislative action February 7, 1894, and the same provided that the report of the committee should become the official flag. The committee recommended for the flag "one with width two-thirds of its length; with a union square, in width two-thirds of the width of the flag; the ground of the union to be red and a broad blue saltier thereon, bordered with white and emblazoned with thirteen (13) mullets or five-pointed stars, corresponding with the number of original states of the Union; the field to be divided into three bars of equal width, the upper one blue, the center one white, and the lower one, extending the whole length of the flag, red—the national colors; the staff surmounted with a spear-head, and a battle-ax below; the flag to be fringed with gold, and the staff gilded with gold."

THE STATE FLOWER

Sudnor and Bennett say that "the school children of the State selected the state flower, and no one else was permitted to vote. The election was held in November, 1900, and the children sent in 23,278 votes. The magnolia received 12,745 votes, the cotton blossom 4,171 and the cape jasmine 2,484. There were a few votes for other flowers. The magnolia won and has been since our state flower."

THE BIRD SELECTED TO BECOME THE STATE AVIAN EMBLEM

In 1929 the Mississippi Federation of Women's Clubs conducted a State bird campaign which resulted in the selection of the mocking bird as the State avian emblem. The next State Legislature will likely be asked to adopt this bird as the official state bird.

STATE SONG

The State Song, adopted as such by the Department of Archives and History several years ago and first published in the Mississippi Official and Statistical Register of 1917, is entitled "Mississippi," and the words, by Mrs. Dunbar Rowland, Jackson, are reproduced below. This beautiful poem was set to music by Walter H. Aiken, of Cincinnati.

MISSISSIPPI

(Words by Mrs. Dunbar Rowland)

There is a beautiful country,
Where southern waters flow,
'Tis where the white magnolia
And yellow jasmine blow.
And there a loyal people,
Work with glad heart and will;
To the faiths of their fathers,
They cling through good or ill.

CHORUS:

Mississippi! Land of a true and valiant race,
Where hope's heavenly light is seen on every face;
Fair land, whose story glows with deeds of heroes brave,
Dear land that hateful tyrant shall ne'er enslave.

A goodly land, whose prospects,
Shine not for men in vain,
And freedom's star is glowing,
To never, never wain.
For her pure hearths and temples,
My heart shall ever yearn,
To her green hills and valleys,
My feet shall ever turn.

Mississippi

A State of Vast Natural Advantages, and Natural Resources;—Of Agricultural, Industrial and Commercial Opportunities.

Agricultural Wealth:

Mississippi has a fertile soil and long growing seasons; its principle crops are cotton, corn, grain, hay, alfalfa, potatoes, sugar cane, sorghum, peanuts; all fruits and vegetable crops thrive in the State. Pecans, both large and small are grown profitably in Mississippi—the Paper-Shell variety of pecans being featured. The largest pecan nurseries in the world are in Mississippi.

The Tung Oil culture is confined chiefly to South Mississippi, the largest Tung Oil grove in the world being at Picayune, (9,500 acres); large acreages are being planted to these Chinese trees in other sections of the Coastal Belt of the State. The potential American market for Tung Oil is estimated at $90,000,000.00 annually.

Mississippi has forest products valued at over $100,000,000.00 annually. The State has a potential production of five billion board feet of high quality hardwoods, soft woods, for permanent wood-using industries.

Industrial Opportunities:

Mississippi has abundant raw materials available for wood-using industries; glass manufacturing plants; Cotton mills and cotton oil mills, (the State's yield in 1931 was 1,725,000 bales); fruit and vegetable canneries; creameries and condenseries, (189,559,532 pounds of whole milk consumed by State dairy industries in 1931); seafood canneries and packeries, (the largest seafood packing plant in the world is at Biloxi); potteries and brick and tile manufacturies; rich mineral deposits, comprising limestone, clays, paint rock, gypsum, bauxite, glass sand, phosphate, etc.

Mississippi has two developed natural gas areas, towit, Jackson and Amory. Amory has three producing wells, and Jackson has approximately 100 producing wells. Five of the Jackson wells have proven heavy oil producers. The total open flow capacity of the Mississippi natural gas fields is three and one-half billion cubic feet daily. The State has also an abundance of hydro-electric power.

Transportation:

Mississippi has numerous lines of railway, accommodating every section of the State, air service through the State, north and south, and east and west; ample river transportation; deep water harbor at Gulfport, and motor bus and truck service throughout the State, with a ten million dollar road construction program under way.

Ideal Climate:

Winters short and mild; growing seasons nearly all the year round, permitting double cropping, and some times three crops in one year.

Health:

The fact that Mississippi ranks second in low death rate (white) and third in high birth rate in the United States is significant. The white death rate in 1932 was only 8.1 per 1000 population, while the colored death rate was 11.7 per 1000. Only four states of the Union had a higher birth rate in 1932 than Mississippi.

Education:

Mississippi has eleven state supported and denominational colleges; eleven junior colleges; forty-six agricultural high schools, and 950 consolidated schools.

Recreation:

Tourists and recreationists will find ideal conditions in Mississippi. Her beautiful Gulf Coast abounds in rare scenery—the "Playground of the New South." The Gulf waters abound in tarpon, and other game fish; swimming, hunting, fishing, boating. Biloxi, settled by d'Iberville in 1699; Beauvoir home of Jefferson Davis; "Dixie White House," winter home of the late President Woodrow Wilson, and many other points of interest, are on the coast, while "Natchez Under the Hills," National Military Park at Vicksburg, Shiloh Park at Corinth, historic ante-bellum homes, and many mineral wells and mineral springs over the State furnish attractions galore.

Mississippi, with 70% of her people gainfully employed in farming, is predominantly an agricultural state. Fertile soils and the long-growing season are conducive to vigorous plant growth. Accordingly, Mississippi attractively appeals to producers of livestock, fruits, vegetables and staple farm commodities.

Tung Oil—The largest Tung Oil Grove in the world located at Picayune, Miss., comprising 9,500 acres. The Tung Oil tree is a Chinese plant, only recently introduced into this country—South Mississippi soil and climate well adapted to its growth and much acreage is being developed. Nuts produce essential oils for the manufacture of paints, varnishes, linoleum and other waterproof compounds. Potential American market for this oil estimated at 90 millions dollars annually.

Lumber—Mississippi has a potential annual production of five billion board feet of high quality hardwoods and softwoods for permanent wood-using industry. FACTS ABOUT MISSISSIPPI

(Taken from Statesman's Yearbook, 1935)

Government—Mississippi, settled in 1699, was organized as a territory in 1798 and admitted into the Union on December 10, 1817. In 1804 and in 1812 its boundaries were extended, but in March, 1817, a part was taken to form the new territory of Alabama, leaving the boundaries substantially as at present. The Legislature consists of a Senate and a House of Representatives, both elected for 4 years. The Capital is Jackson; there are 82 counties.

Qualified as electors are all United States citizens who have resided in the State two years and in the election district for one year (clergymen for six months) next before the election, have paid the legal taxes, and have been registered. The applicant for registration must be able to read the State Constitution or show that he understands it when it is read to him.

The State is represented in Congress by 2 Senators and 7 Representatives.

DIGEST OF MISSISSIPPI GAME AND FISH LAWS 1935 - 1936

GAME AND FISH COMMISSION

W. E. McIntyre, Chairman; Ben M. Stevens, Secretary; W. G. McGill, Vice-Chairman; Si Corley, Director of Conservation.

Conservation laws are not designed by the state to deprive people of their right to hunt and fish. These regulations are merely rules necessary to the management of our game and fish supply for the benefit of the sportsman.

Every violation of the game law and regulations is an infringement upon the personal rights of the violator and others.

Cooperate with your state and federal conservation departments and help spread the message of sportsmanship to all who engage in the sports.

The capitol is situated in latitude 38° 53′ 20.4″ north and longitude 77° 00′ 35.7″ west from Greenwich. It fronts east and stands on a plateau 88 feet above the level of the Potomac, and one and one-fourth miles from the White House. The entire length of the building from north to south is 751 feet 4 inches, and its greatest width from east to west is 350 feet. The entire area covered by the building is 153,112 square feet. The senate wing of the old capitol was built first, then the house, and the two were connected by a wooden passage way. The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present remarkable structure of cast iron. It took nine years to build it. The weight of the iron used is 8,909,200 pounds. Crawford's magnificent bronze statue of Freedom, which surmounts the dome, is 19 feet 6 inches in height and weighs 14,985 pounds. The height of the dome above the baseline of the east front is 287 feet 5 inches. The height from the top of the balustrade of the building is 217 feet 11 inches. The greatest diameter at the base is 135 feet 5 inches. The rotunda is 97 feet 6 inches in diameter, and its height from the floor to the top of the canopy is 180 feet 3 inches. The southeast cornerstone of the original building was laid September 18, 1793, by President Washington, with Masonic ceremonies. The north wing was finished in 1800 and the government came from Philadelphia and took possession in October of that year. The interior of both wings was destroyed by fire August 24, 1914. The foundation of the center was laid March 24, 1918. The cornerstone of the extension was laid July 4, 1851, by President Filmore. The two wings now occupied by the senate and house were added to the capitol to accommodate the senate and the house of representatives. The senate chamber is 113 feet 3 inches in length, by 80 feet 3 inches in width, and 36 feet in height. The galleries will accommodate 1,000 persons. The hall of representatives is 139 feet in length by 93 in width, and 36 feet in height When the house is in session the Stars and Stripes is flung to the breeze over the south wing, and when the senate is sitting the flag flies over the north wing. At night, if congress is sitting, there is a light in the dome. The value of the capitol and grounds is about $53,000,000.

Title and Term of the President

The address of the president is simply "the President of the United States." In the first congress there was a debate over a title and it was proposed by some members that he be addressed as. "His Excellency" and by others as "His Highness," but a committee reported that "it is not proper to annex any style or title other than that expressed in the constitution." In the constituional convenion the first report fixed the term of office at seven years without eligibility to reelection. In debate various periods from "during good behavior" to twenty years were favored. The limit to four years was finally adopted in grand committee and ratified by the convention.

The Presidential Succession

The presidential succession is fixed by chapter 4 of the acts of the forty-ninth congress, first session. In case of removal, death, resignation, or inability of both the president and the vice-president, then the secretary of state shall act as president until the inability of the president or vice-president is removed or a president is elected. If there is no secretary of state, then the secretary of the treasury will act; and the remainder of the order of succession is as follows: The secretary of war, attorney general, postmaster general, secretary of the navy, and secretary of the interior. The acting president must, upon taking office, convene congress, if not at the time in session, in extraordinary session, giving 20 days' notice. This act applies only to such cabinet officers as shall have been confirmed by the senate and are eligible under the constitution to the presidency.

Salary of the President

The salary of the president of the United States was the cause of discussion in the first congress, in view of the fact that the constitution declared that the president should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in congress ranged from $15,000 to $70,000. The salary was finally placed at $25,000, and this remained the compensation until President Grant's second term (March 3, 1873) when it was increased to $50,000. Chapter 2918 of the laws of the second session of the fifty-ninth congress, approved March 4, 1907, appropriated "for traveling expenses of the president of the United States, to be expended at his discretion and accounted for by his certificate solely, $25,000." In the second session of the sixtieth congress the matter of increasing the president's salary was again considered, and it was decided that the president's salary be fixed at $75,000 a year.

OUR PRESIDENTS

First there was WASHINGTON, stately and tall,
Maker of history, Father of all,
Who, after two terms, first, '89,
And then, '93, stepped out of the line.

Then came JOHN ADAMS whose term was but one,
With the century's death, died the great Washington;
With the new century's birth, from Franklin's town
They moved the seat of the nation down.

Two things stand out until eighteen-0-9,
Eight years when JEFFERSON filled out the line,
The purchase of Louisiana from France
And the cruel death of Hamilton, man of finance.

JAMES MADISON next, and Virginia's third,
During whose two terms America heard
The war-cry of Indians at Tippecanoe
And the guns of the British in eighteen-1-2.

JAMES MONROE witnessed the Seminole War
And to five new States flung open the door;
The century's quarter then saw him step down,
But his "Doctrine" lives on with increasing renown.

Then, during JOHN QUINCY ADAMS' four years,
On July the Fourth, '26, there were tears
By the "Bay State" and "Old Dominion" shed
For Adams and Jefferson, their famous dead.

When "Old Hickory" JACKSON from Tennessee
Was shaping for two terms our destiny,
There were famous debates of Webster and Hayne;
And the Seminoles went on the war-path again.

The next President brought the number to eight,
MARTIN VAN BUREN from the "Empire" State.
From the year '37 he labored with zest
For four years to calm the financial unrest.

Then two native Virginians came,
WM. H. HARRISON of Indian fame
Who, after a month's brief service died;
With the rest of his term by TYLER supplied.

JAMES K. POLK added four years more,
While Taylor and Scott in the Mexican War
Were gaining fame and winning wide lands
In guerilla fights on the border sands.

Of four years ZACH TAYLOR had served only one,
And died when the century's half was done.
When FILLMORE was in, death saddened the day
In the loss of two orators, Webster and Clay.

It was FRANKLIN PEARCE from the "Granite" State
A friend of Hawthorne and college mate,
Who witnessed the Free State clouds arise,
And dim for a term the Kansas skies.

Momentous four years, BUCHANAN'S, each one:
The Dred Scott decision, small outbreaks begun,
The hanging of John Brown after his raid
And plans for the Southern Confederacy laid.

Came the great LINCOLN in March, '61
And on April the twelfth, Sumpter fired upon;
Then four bloody years till the downfall of Lee
And the end of the gallant Confederacy.

Following "Honest Abe's" death there came
ANDREW JOHNSON of veto fame,
Who though impeached, was acquitted by one
And served till the last term of Lincoln was done.

Like Washington, Jackson and Taylor before,
GRANT had gained prestige out of a war;
Throughout two terms he was calm and discreet
Though he much mourned the news of Custer's defeat.

His election disputed at first, R. B. HAYES',
After winning the argument, soon won the praise
Of the country at large for his wise, moderate views
And his sympathy offset by strength to refuse.

When GARFIELD, the "Martyr President," died
It fell to the hands of ARTHUR to guide
Till the year '85 the Ship of State
Through happenings neither grave nor great.

There has been in the White House only one
Who, serving two terms, when the first was done
Dropped out of the presidential line,
As Cleveland did in the year eighty-nine.

With HARRISON'S coming came six States more,
When Oklahoma opened its door:
The "Mountain," "Coyote," "Evergreen," "Sioux,"
Idaho and Wyoming, too.

Of clear assertion and action strong,
GROVER CLEVELAND came along
For his second term in ninety-three,
Still gaining in popularity.

Oppression in Cuba and sinking the Maine
Forced McKINLEY to our War with Spain,
Which ceded to us when the war was through,
Porto Rico, Guam, and the Philippines, too.

A soldier and family man of the best,
Who at Panama coupled the East and the West,
ROOSEVELT, taking the reins in 0-1,
Served a term beside that by McKinley begun.

Having ably held the portfolio of War,
TAFT then entered the White House door;
A quiet sea for the Ship of State,
Save Peary's dash and the Titanic's fate.

The Lusitania with its loss of life,
The great World War and his earnest strife
For the League of Nations are one with the name
Of WOODROW WILSON and his war-time fame.

HARDING, on August the fourth passed away,
Serving but twenty-nine months to a day.
And millions there were who could not refrain
From tears as they witnessed his home-coming train.

Then CALVIN COOLIDGE from Green Mountain State,
By his vetoes, alone, proved his wisdom was great;
Calm in excitement,—not swayed by the mass,
His silence will speak as the centuries pass.

Hail! HERBERT HOOVER, the keen engineer,
Who in famine abroad and floods that were near,
Had shown an ability right in the line
With the task he assumed in March, '29.

CHARLES F. BENEDICT.

And now, to FRANKLIN ROOSEVELT belongs the fame
Of ending the depression in Democracy's name;
Restoration of business and a re-employment pact,
Were among the first provisions of his Recovery Act.

—M. W. S.

THE NATIONAL FLAG

The pledge to the Flag;

> "I pledge allegiance to the flag of the United States
> And to the Republic for which it stands,
> One Nation, indivisible,
> With liberty and justice for all."

The official flag of the United States bears forty-eight white stars in a blue field, arranged in six rows of eight stars each. Two stars were added in 1912 by the admission of Arizona and New Mexico to the Union. The garrison flag of the army is made of bunting, thirty-six feet fly and twenty feet hoist, thirteen stripes, and in the upper quarter, next to the staff, is the field or "union" of stars, equal to the number of states, on blue field, over one-third length of flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The revenue marine service flag, authorized by act of congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of states which had been admitted to the Union at that time, and no change has been made since. June 14, the anniversary of the adoption of the flag, is celebrated as flag day in a large part of the Union.

When and How to Use the Flag

The following code of etiquette for the use of the National flag was adopted by the National Americanism Commission of the American Legion, June 14,1923.

1. The flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be displayed on National and State holidays and on historic and special occasions. The flag should always be hoisted briskly and lowered slowly and ceremoniously.

2. When carried in a procession with another flag or flags, the flag of the United States should be either on the marching right, i. e., the flag's own right, or when there is a line of other flags the flag of the United States may be in front of the center of that line.

3. When displayed with another flag against a wall from crossed staffs, the flag of the United States should be on the right, the flag's own right, and its staff should be in front of the staff of the other flag.

4. When a number of flags are grouped and displayed from staffs, the flag of the United States should be in the center or at the highest point of the group.

5. When flags of states or cities or pennants of societies are flown on the same halyard with the flag of the United States, the national flag should always be at the peak. When flown from adjacent staffs the flag of the United States should be hoisted first. No flag or pennant should be placed above or to the right of the flag of the United States.

6. When flags of two or more nations are displayed they should be flown from separate staffs of the same height and the flags should be approximately equal size. (International usage forbids the display of the flag of one nation above that of another nation in time of peace.)

7. When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony, or front of building, the union of the flag should go clear to the head of the staff unless the flag is at half mast.

8. When the flag of the United States is displayed in a manner other than by being flown from a staff it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against the wall, the union should be uppermost and to the flag's own right, i.e., to the observer's left. When displayed in a window it should be displayed the same way, that is, with the union or blue field to the left of the observer in the street. When festoons, rosettes or drapings of blue, white and red are desired, bunting should be used, but never the flag.

9. When displayed over the middle of the street, as between buildings, the flag of the United States should be suspended vertically, with the union to the north in an east-and-west street or to the east in a north-and-south street.

10. When used on a speaker's platform, the flag should be displayed above and behind the speaker. It should never be used to cover the speaker's desk nor to drape over the front of the platform. If flown from a staff it should be on the speaker's right.

11. When used in unveiling a statute or monument, the flag should not be allowed to fall to the ground but should be carried aloft to wave out, to form a distinctive feature during the remainder of the ceremony.

12. When flown at half staff, the flag is first hoisted to the peak and then lowered to the half staff position, but before lowering the flag for the day it is raised again to the peak. On Memorial Day, May 30, the flag is displayed at half staff from sunrise until noon and at full staff from noon until sunset, for the nation lives and the flag is the symbol of the living nation.

13. When used to cover a casket the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried foot first.

14. When the flag is displayed in church it should be from a staff placed on the congregation's right as they face the clergyman. The service flag, the state flag, or other flag should be at the left of the congregation. If in the chancel, the flag of the United States should be placed on the clergyman's right as he faces the congregation and other flags on his left.

15. When the flag is in such a condition that it is no longer a fitting emblem for display it should not be cast aside or used in any way that might be viewed as disrespectful to the national colors, but should be destroyed as a whole privately, preferably by burning or by some other method in harmony with the reverence and respect we owe to the emblem representing our country.

The flag should be flown on the following days: Lincoln's birthday, February 12; Washington's birthday, February 22; Mother's day, second Sunday in May; Memorial day, May 30; Flag day, June 14; Independence day, July 4; also many local patriotic anniversaries.

Proper Use of Bunting

Bunting of the national colors should be used for covering a speaker's desk, draping over the front of a platform and for decorating in general. Bunting should be arranged with the blue above, the white in the middle and the red below.
